Leadership Team

Parag Sheth – Visionary Founder

A seasoned entrepreneur and business strategist with over **35 years** of global experience across finance, technology, consulting, and business development. He brings deep expertise in strategic partnerships, investment facilitation, business growth, and building long-term value-driven enterprises.

Mathew Abraham – Strategic Advisor, Technology & Operations

A technology strategist and operational systems expert with more than three decades of international experience in enterprise technology, systems integration, infrastructure, and operational transformation. He specializes in aligning technology, AI adoption, and business operations to drive efficiency, scalability, and sustainable growth.

Hemanshu Vyas – Chief Technology Officer & AI Systems Architect

A full-stack developer, AI systems architect, and technology innovator specializing in SaaS platforms, enterprise software, automation systems, and AI-powered solutions. He leads product development, technology strategy, and the creation of scalable digital platforms that help businesses embrace intelligent transformation.

Let's Build Together

Whether you're looking to:

- Launch an AI initiative
- Build a SaaS product
- Develop a business portal
- Automate operations
- Create a modern ecommerce platform
- Deploy enterprise software

The future belongs to organizations that embrace innovation. At Global Corporation, we believe technology is not just about software—it's about creating opportunities, accelerating growth, and enabling businesses to achieve their full potential. Through innovation, intelligence, and execution, we help organizations build the future they envision.
